

widget

```
classDiagram
    widget <|-- container
    container <|-- mapbuf
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'widget'. A vertical line with an open triangle arrowhead points from a box labeled 'container' below it to the 'widget' box. Another vertical line with an open triangle arrowhead points from a box labeled 'mapbuf' at the bottom to the 'container' box.

container
