

widget

```
classDiagram
    widget <|-- container
    container <|-- mapbuf
```

A UML class diagram showing inheritance. The 'widget' class is at the top, 'container' is in the middle, and 'mapbuf' is at the bottom. A vertical line connects 'container' to 'widget' with an open triangle arrowhead pointing to 'widget'. Another vertical line connects 'mapbuf' to 'container' with an open triangle arrowhead pointing to 'container'.

container

mapbuf
